Easy handling

The display shows flow rate as well as battery status. Large buttons facilitate quick operation of all functions.

High performance

Battery capacity allows for two hours of operation. A special battery belt provides an additional six hours of battery power.

Simple practicality

Ideal for mobile use, the FreeStyle Mobil comes with a power adapter that allows easy connection to a car's cigarette lighter socket.

Unlimited freedom

Whether at home or on the go, the FreeStyle Mobil is easier to transport than conventional oxygen concentrators thanks to its slim design and energy-saving technology. The unit's ergonomic shape and simple operation guarantee convenient handling.

Small, light and robust

The FreeStyle Mobil was specially developed for unlimited everyday use. The combination of the conventional oxygen-concentration method with an oxygen-conserving method makes the FreeStyle Mobil oxygen concentrator extremely handy and practical to use.

The main features of the FreeStyle Mobil

- Handy portable oxygen concentrator
- Maximum freedom of movement for patients thanks to a maximum consumption of three litres of oxygen per minute
- Size of carrying case (21.8 x 15.5 x 9.1 cm)
- Acoustic alarms
- Batteries require just three hours to charge
- DC power adapter makes it easy to connect the unit to a car battery (12V DC) via the cigarette lighter socket
- Noise level less than 55 decibels
- Range: two hours, eight hours with battery belt
- Additional capacity thanks to special battery belt (0.8 kg)
- Includes carrying case and shoulder strap, incl. mains power lead, charger, 12 V lead for the car, rechargeable batteries and a nasal cannula
